Key words: errata, addenda – stars: formation – stars: Population II – stars: Population III – supernovae: general – galaxies: evolution – galaxies: ISM.

In our paper (de Bennassuti et al. 2014) we model the grain growth accretion time-scale τ_{acc} (equation 12) following Asano et al. (2013). This equation contains a typographical error, and the correct equation is

$$\tau_{\text{acc}} \approx 20 \text{ Myr} \times \left(\frac{\bar{a}}{0.1 \mu\text{m}} \right) \left(\frac{n}{100 \text{ cm}^{-3}} \right)^{-1} \left(\frac{T}{50 \text{ K}} \right)^{-1/2} \left(\frac{Z}{Z_{\odot}} \right)^{-1}. \quad (1)$$
